

THE UNIVERSITY OF ALABAMA IN HUNTSVILLE

Tips for Class Registration

Do Research

Research is an important step to identify what classes are needed to graduate. Students can see what classes they need by going to the Student Records section of my.uah.edu and clicking on *DegreeWorks*.

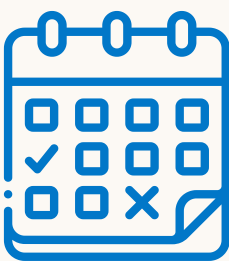

Ask Questions

If any questions come up during research make sure to make an advising appointment! Academic Advisors are always happy to help!

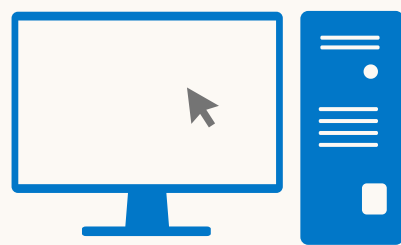

Pick Classes

Based on information found during research and talking to an advisor, pick classes for the upcoming term. Students can see what classes are available by going to the Registration section of my.uah.edu and clicking on *Look Up Classes*.

Determine Best Schedule

Some classes have more than one section. Make sure to pick classes with times that don't overlap, but also consider what times are personally too early or late.

Register for Classes

Registration times are different by year, so make sure to check the university email for more information about registration dates.

Get Prepared for Next Term

If any classes filled up too fast, get added to the waitlist or try to replace the class with a different one that's needed. Don't forget to celebrate a successful registration!

To access *DegreeWorks* and *Look Up Classes* pages go to my.uah.edu

For scheduling academic advising appointments go to uah.edu/academic-advising
